RECOMMENDATIONS

- › Do not use with hot mixed asphalt.
- › When using with ALVEPLAC® and GREENPLAC®, we recommend to use metal stakes (Diameter : 8 mm, 250 mm length) instead of the plastic stakes provided. This is because the vibrations created by the plate compactor can have an impact on the anchoring and move the border.
- › For a 90° angle : a minimum of 12 cm of borders are needed.
