

LATERAL RISER SUPPORT

FOR PAVING AND DECKING RISER PEDESTAL

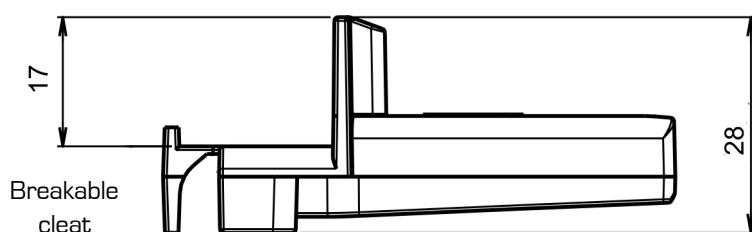

Patented System

100% recycled

TECHNICAL DETAILS

- › Material : recycled polypropylene
- › Colour : black
- › Dimensions : 100 mm x 67 mm x 28 mm
- › Weight : 30 g
- › Resistant to extreme temperature from -30°C to +60°C
- › UV and frost resistant

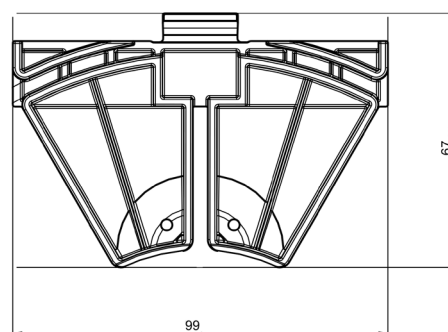

APPLICATIONS

- › Provides a platform to create a vertical edge around the perimeter of the installation.
- › Using the side finishing plate and later riser support allows 3 possibilities: finish with a plinth, invisible finishing, to create a step.
- › Using individually allows finish with buttress.

BENEFITS

- › No additional tools.
- › The cleat can be split : no plinth thickness limit.
- › Invisible fixing of the plinth.
- › Glue trap system.
- › Used to finish the edges of a paved terrace created using Profildeck®.
