

3 MM CROSS SLAB STABILIZING SPACER

BENEFITS

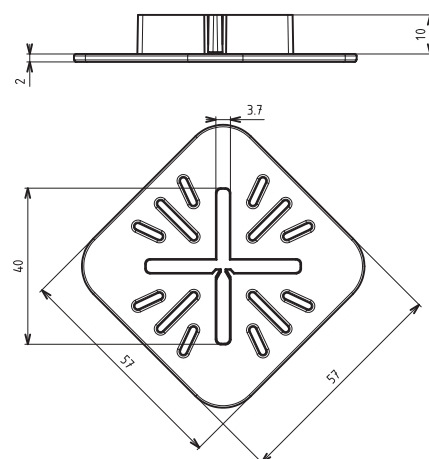

- CROSS DALLE® is completely invisible and does not impact the aesthetics of the installation.
- Divisible tabs and baseplate of the spacer to adapt to the types of installation.
- CROSS DALLE® is multi-perforated to prevent water retention.
- The basis ensures that paving slabs are level relative to each other and ensures that the spacer is held in position and cannot lift.

✓ APPLICATIONS

- Ideal for installing slabs directly on gravel or sand.
- Possibility to use Cross Dalle® against a wall or for staggered installation.

⚙️ RECOMMENDATIONS

- Terraces and patios for pedestrian use only.
- Outdoor use only.
