

BENEFITS

- Adjustable to adapt to several slab dimensions from 300 to 700 mm.
- Good grip.

✓ APPLICATIONS

- The slab grab helps in building terrace, creating pedestrian areas, or any structure that needs tiles/slab manipulation.
- Enables an individual slab to be easily lifted and replaced back into position.
- Can be used with concrete slabs or ceramic tiles.

⚙️ RECOMMENDATIONS

- Hold the handle tight when moving the slab.
- Handle carefully.

🔍 TECHNICAL DETAILS

- Material: steel / plastic (handle)
- Colour: blue
- Weight: 3 kg
- Tube thickness: 3 mm
- Fixed indexing point every 16 mm
- Wing nuts for adjustment from 300 to 700 mm
