

Jouplast®

URBANIT®

CONSOLIDATION TILES FOR VEGETATION FOR PERMEABLE URBAN AREAS

BENEFITS

- A 100% recycled material for reduced environmental impact.
- Quick and easy to lay.
- Optimal, natural drainage of rainwater.
- Integral interlocking system for maximum stability.
- Creativity: the option of combining block paving, plants and gravels in the same surfacing project.
- The option to use zone markers.

APPLICATIONS

- Perfect for creating water-permeable surfaces for intensive use as parking areas, access roads, footpaths, cycle paths, etc. (in city centres, shopping centres and many other applications).
- They can also be used to provide clearly differentiated types of parking space (for PRM users, electric vehicles, etc.) and traffic zones, etc.
- 100% permeable to rainwater.
- Suitable for use by vehicles with axle loadings of up to 20 tonnes.
- Suitable for creation of fire access roads.

RESISTANCE

- Vertical resistance (empty): 90 T/m².
- Vertical resistance (filled): up to 1,000 T/m².

RECOMMENDATIONS

- The Urbanit® range is not designed for intensive use by heavy goods vehicles.
- Do not use with hot asphalt.
- Can be cut using a disc cutter.
- Where necessary, modules can be driven on before filling to facilitate unloading of topsoil for a planted fill.
- Can be installed on slopes up to 2%.
- Suitable with the zone markers references IURBBOUCBL60000 & IURBBOUCNR70000. Count 2.2 zone markers per m² (quantity to be adapted according to the environment and the site).
- For IFU, see the website.

TECHNICAL DATA SHEET

TECHNICAL DETAILS

- Material: recycled polyolefin
- Colour: green
- Usable dimensions: 476 mm x 319 mm x 57 mm *
- Usable area: 0.1518 m² (6.5876 tiles per m²)
- Overall dimensions: 480 mm x 322 mm x 57 mm *
- Wall thickness: 2.1 mm
- Cell structure: hexagonal (honeycomb) / internal diameter: 60 mm
- Weight: 0.930 kg i.e 6.12 kg/m²
- Resistance to temperature from -30°C to +60°C
- UV and frost resistant

PACKING

- Pallet of 138 parts i.e 20.9484 m² (Stackable)
- Full truck = 1 089,3168 m² (52 stackable pallets i.e 26 pallets on the floor)

USE

- Urbanit® is fully compliant with the required puncture resistance of 80 N/cm² for fire access applications.
