

BENEFITS

- Resistant, non-deformable and irremovable, the mat improves stability.
- Reduces frame vibrations, impact noise and attenuates resonances.
- Distribution of weight by correcting foundation irregularities.

APPLICATIONS

- This recycled natural rubber mat is designed to isolate the terrace riser pedestal from the substrate it stands on, thereby reducing structural vibration and impact noise.
- Improves the overall stability of the structure.

RECOMMENDATIONS

- Do not use on gravel.

TECHNICAL DETAILS

- Material: recycled tyre
- Colour: black
- Dimensions: 225 mm x 230 mm
- Thickness: 3 mm
- Weight: 125 g
- UV and frost resistant
- Resistant to extreme temperature from -30°C to +60°C

PACKING

- Box of 30 parts (80 boxes per pallet)
