

FLEXIBLE BORDER EDGING STRIP - HEIGHT 4.5 CM

BENEFITS

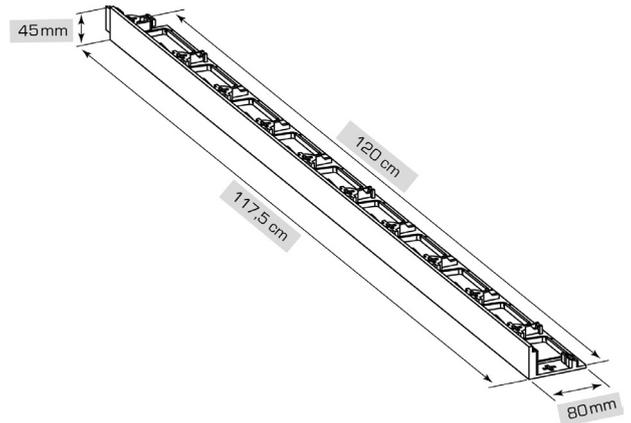

- Invisible jointing system, and curvature resistance.
- Use to form curves or straight lines.
- Quick and easy installation with integrated assembly and interlocking system.
- Safe: this flexible material can be used safely in playgrounds.
- 8 anchoring stakes provided.
- Easily cut to length.

APPLICATIONS

- Makes it possible to clearly separate distinct areas of landscaping (lawns, gravel, paving, paths, etc.)
- Can be used to retain concrete or cold mixed asphalt.

RECOMMENDATIONS

- Do not use with hot mixed asphalt.
- When installing these edging strips in conjunction with Gravelstab® and Greenplac®, which require the use of a vibrating compactor to compact the hardcore, we recommend the use of 250 x 8 mm metal stakes to avoid any possibility of vibration near the edging strip moving the plastic anchor stakes.
- For a 90° angle : a minimum of 12 cm of borders are needed.
- For fixing, use the anchoring stakes (8 provided).
- It is possible to use metal stakes - Diameter: 8 mm.
- For IFU, see the website.

TECHNICAL DETAILS

- Material: recycled polyolefin
- Colour: green and anthracite grey
- Usable dimensions: 235 cm (2 x 117.5 cm)
- Overall dimensions: 240 cm (2 x 120 cm)
- Weight: 1.060 kg
- Resistance to temperature from -30°C to +60°C
- UV and frost resistant

PACKING

- Box of 10 parts
